UNDERSTANDING YOUR RESULTS

Continuing the improvements made in 2024, this year's survey eliminated large portions of the questions that focused on awareness and utilization of member benefits, digital presence and social media use, or demographic data which is already collected in the member profile on mpi.org. These data points will be asked in future years or asked during specific outreach to members in separate campaigns since the data does not change on an annual basis.

The results of this survey are anonymous. Only those chapters who have a dedicated incentive to increase participation will be given the names of a select group of participants who fully completed the survey and provided their email address. Requests must be made in advance of the official close date of this survey. Please contact your Chapter Operations Team member if you have any questions or concerns regarding these results.
